RESPIRATORY RANGE

Masks, cartridges & disposable dust masks are EN 149 (European Norm) approved & provide greater respiratory protection against airborne viruses and bacteria. Disposable Dust masks are essential in industrial working environments for respiratory protection against solid and liquid particulates. Flat Fold dust masks are compact for easy transport during use. FFP1, FFP2, FFP3 dust masks are available.

RHINO CLEAR POLYCARBONATE SAFETY CAP

Our new range of transparent safety caps are a unique necessity for a multitude of industries where the user would be at risk when looking up at hazardous times to assess potentially dangerous surroundings.

These caps are manufactured from clear polycarbonate making them stronger than regular caps and using the Rhino ratchet liner are more comfortable than ever.

HEAD & FACE

Head and face PPE is essential when there's the possibility falling or flying objects causing injury. Our hard hats and face shield combinations will offer you the personal protection you need.

REQUEST A PPE QUOTATION

Send your PPE list, workforce sizes, site specifications and branding requirements.

01

SHARE THE REQUIREMENT

PPE list, quantities, sizes, colours, standards and delivery location.

02

CONFIRM SITE SUITABILITY

MSG coordinates product options against the information supplied by the client.

03

REVIEW QUOTATION

Pricing, availability, lead times, branding and delivery terms are confirmed.

04

SUPPLY & DELIVERY

Order coordination for South Africa, Zambia and the DRC.
